

NEW
STARTING FALL 24

Minor in **URBAN STUDIES**

Flexible and interdisciplinary minor that consists of **18 units** (6 courses) from different departments, including 3 core, 1 method, and 1 elective courses - some of which also meet GE requirements. Chose among **exciting courses** such as:

Urban Politics
Geography of Cities
The Black Urban Experience
Art, Environment, and Place
Sustainable Cities

Urban Anthropology
Land Use Analysis
Planning and Public Policy on the US-Mexico Border
Management of Urban Governments
World Cities

Complements many disciplines, such as economics, sustainability, sociology, political science, geography, public health, business, public administration, engineering, architecture, and ethnic studies.

Focuses on **contemporary urban issues** such as housing affordability, social justice, mobility and access, sustainability and climate change, infrastructure, health and wellbeing, and economic development.

Offers a **solution-oriented curriculum** preparing students to contribute to the creation of sustainable, prosperous, resilient, livable, and inclusive cities.
